

Press Release

New roles for Nicky and Claire

Nicky Little has been promoted to the role of Technical Director at Spalding-based pot plant supplier The Butters Group, in a move that reflects the company's fast-developing technical agenda.

Nicky, who was previously the company's Technical Executive, has been with Butters for two years following a career in cut flowers that included roles with supermarket suppliers Zwetsloots and World Flowers.

Meanwhile, **Claire Cook** has also been promoted, to the newly-created post of Quality Assurance Manager, reporting to Nicky. Her role will include managing the QA team, as well as handling technical paperwork and maintaining and developing management systems.
