

Press Release

Private equity specialist **Chris Miller** has been appointed Financial Director of expanding Lincolnshire pot plant supplier the **Butters Group**.

Miller, who has worked with a variety of private equity-backed businesses, has taken over from Mark Walker, who retired after 22 years with the company.

Butters, a supplier to most of the UK's big-name multiple retailers, was acquired in 2007 by its directors and the venture capital group **Advantage Capital Limited**. Miller joins at a busy time for the business: in February it sold over 3 million plants to meet demand for both Valentines and the unusually early Mothers Day.
